DISCLAIMER

ANALGESICS

Key Data Findings

2025 Developments

The impact of climate change and the incidence of endemic diseases are determining factors in the demand for analgesics

Price remains a priority for Hondurans when choosing analgesics

Traditional pulperias channel is still highly relevant in the distribution of analgesics, although it is losing ground to the expansion of pharmaceutical chains

Prospects and Opportunities

Self-medication with analgesics is an immediate and temporary response by Hondurans to limited health insurance coverage

The industry innovates with more potent formulations and greater specificity in the type of pain relief

Demographic changes are favouring the emergence of products formulated to relieve pain in older adults

COUGH, COLD AND ALLERGY (HAY FEVER) REMEDIES

Key Data Findings

2025 Developments

The growing impact of environmental conditions drives demand for cough and allergy remedies

Cough, cold and allergy (hay fever) remedies led by global brands with an emphasis on fast-relief formulation improvements and multifunctionality

Pharmaceutical chains expand coverage with a strong pricing strategy

Prospects and Opportunities

The incidence of colds and allergies tends to extend over periods beyond just seasonality, favouring demand for the category

Allergy medications become increasingly popular with demand rising for effective formulations as well as those that do not interfere with modern dynamic lifestyles

Natural remedies for treating colds and respiratory illnesses are highly relevant due to their affordability and the growing perception that they are healthier alternatives to chemical formulations

DIGESTIVE REMEDIES

Key Data Findings

2025 Developments

Poor eating habits and limited public sanitation infrastructure drive demand for digestive remedies

Global brands lead in digestive remedies focusing on increasing specificity

The breadth of coverage of small local grocers contributes to their relevance in the distribution of digestive remedies

Prospects and Opportunities

Digestive health is increasingly prioritised by Hondurans

Innovations around alleviating digestive discomfort focus on more convenient formats

Claims about the benefits of nutritional support are expected to become more prevalent in digestive enzymes launches

DERMATOLOGICALS

Key Data Findings

2025 Developments

The more intense climatic conditions favour sustained demand for dermatologicals

Bayer AG's Canesten brand strengthens its position with a strategy to connect with young generations of Hondurans

An omnichannel strategy and personalised professional advice strengthen the positioning of pharmacy chains

Prospects and Opportunities

Skin care relevance and climate conditions bode well for category sustainability over the forecast period

Product development for women's health increasingly focuses on specific lifecycle stages

Socioeconomic limitations hinder the potential for improved performance of dermatologicals
