DISCLAIMER

ANALGESICS

Key Data Findings

2025 Developments

The habit of self-medication boosts demand for analgesics despite existing widespread usage

Industry pays special attention to paediatric analgesics

Price competitiveness consolidates pharmacy chains as the main distribution point for analgesics

Prospects and Opportunities

Childhood demographics drive dynamism in systemic analgesics over the forecast period

Innovations in analgesics aim at rapid absorption technologies and concentrated formulations

Topical analgesics increasingly characterised by products positioned with natural compounds

COUGH, COLD AND ALLERGY (HAY FEVER) REMEDIES

Key Data Findings

2025 Developments

The impact of climate change is increasingly affecting the prevalence of respiratory infections and allergies among Salvadorans.

Global brands consolidate their strong position in cough, cold and allergy (hay fever) remedies

Pharmacy chains reaffirm their position as a preferred channel thanks to their competitive prices and growing coverage

Prospects and Opportunities

Self-medication and environmental conditions drive demand for cough, cold and allergy (hay fever) remedies over the forecast period

Innovations in cold and flu remedies focus on rapid absorption and combating the root cause of the illness rather than just the symptoms

Dietary immune supplementation is becoming a growing practice among Salvadorans and has the potential to slow demand for cold and flu products

Category Data

DIGESTIVE REMEDIES

Key Data Findings

2025 Developments

Poor eating habits and limited sanitation infrastructure lead to an increase in gastric diseases

The industry's strategy is to highlight the preventative health benefits of digestive care

Pharmacies expand health counselling services and emphasise the importance of digestive care

Prospects and Opportunities

Gastric ailments are highly prevalent among Salvadorans, with a slow improvement expected

The range of digestive enzymes evolves through the introduction of new formats

Consumption of dietary supplements for digestive health is growing among certain demographics, potentially reducing the need for digestive remedies

Category Data

Table 22 - Sales of Digestive Remedies by Category: Value 2020-2025

DERMATOLOGICALS

Key Data Findings

2025 Developments

Changing humidity conditions drive peak demand for antifungals

Bayer AG retains a strong position in dermatologicals in El Salvador

Discounts and omnichannel strategies favour the expansion of retail e-commerce platforms

Prospects and Opportunities

The recurrence of dermatological conditions is increasing in El Salvador, with changes in climatic conditions being one of the factors contributing to its occurrence.

The search for faster solutions to dermatological conditions shifts demand towards prescription options

Growing preference for naturally derived compounds in paediatric dermatologicals

Category Data

Table 28 - Sales of Dermatologicals by Category: Value 2020-2025

Table 33 - Forecast Sales of Dermatologicals by Category: % Value Growth 2025-2030

WOUND CARE

Key Data Findings

2025 Developments

Boost for wound care due to increased interest in sports activities although growth remains moderate

Cure Band strengthens its positioning with increasing coverage and portfolio expansion

Pharmacies retains the outright lead in sales of wound care products

Prospects and Opportunities

Moderate forecast period growth of wound care driven by specific consumer groups such as athletes or older adults

Innovation in wound care grows around claims of faster healing, targeting more specific needs

Sustainability claims in wound care are still evolving

VITAMINS AND DIETARY SUPPLEMENTS

Key Data Findings

2025 Developments

Salvadorans demand dietary supplements for increasingly specific purposes

Leading brands connect with consumers seeking healthier ageing

Pharmacies are strengthening their positioning by offering wellness solutions with a growing range of dietary supplements and a more holistic approach to health

Prospects and Opportunities

Sales stabilise as consumers shift from multipurpose products to remedies with specific ingredients

Growing innovation in gut supplementation as an inducer of good general health

The variety of dietary supplements making environmental claims is expanding

WEIGHT MANAGEMENT AND WELLBEING

Key Data Findings

2025 Developments

Ongoing stagnancy of weight management and wellness due to easy access to prescription alternatives

The industry diversifies its offer of drinkable nutritional supplements

Scientific validation and portfolio expansion strengthen the relevance of pharmacies in the distribution of weight management and wellbeing

Prospects and Opportunities

Moderate forecast period growth of weight management and wellbeing sales

Young generations are embracing the use of digital tools in their quest to achieve weight control

Drinkable nutritional supplements registers further dynamic development over the forecast period

Category Data

SPORTS NUTRITION

Key Data Findings

2025 Developments

Sports nutrition supplements continue to grow and reach a wider audience, not necessarily just those who practice sports

GNC strengthened by its broad portfolio in sports nutrition

The availability of sports supplements is increasing in the country thanks to the growth of chained pharmacies

Prospects and Opportunities

Demand for sports nutrition continues growing due to increased awareness of prevention-focused supplementation and broader access to more affordable options

Sports nutrition aims for broader positioning with claims such as energy and hydration
Plant-based and formulation customisation are expected to grow in sports nutrition range
Category Data

Table 57 - Forecast Sales of Sports Nutrition by Category: % Value Growth 2025-2030

HERBAL/TRADITIONAL PRODUCTS

Key Data Findings

Cultural tradition is renewed with a growing appreciation of medicinal herbal ingredients among young generations

No significant brands in the category at the end of the review period

The positioning strategy for the growing offering of holistic wellness products favours the growth of the pharmaceutical channel in herbal/traditional products

Prospects and Opportunities

The perception that formulations with natural ingredients potentially provide more benefits to the body is gaining ground among Salvadorans

Scientific validation and personalisation become increasingly important

El Salvador still has a legal loophole regarding the practice of natural medicine
