

Global Economic Forecasts: Q3 2026

August 2026

[Table of Contents](#)

INTRODUCTION

A Hormuz disruption ripples across demand, food, and energy costs

Key findings

Our expert's view of the global economy in Q3 2026

Top five trends in global economy

Key events shaping economic growth over April 2025-July 2026

Hormuz disruption impact on business

GLOBAL OUTLOOK

Global growth cools under higher energy costs, but resilience holds

Persistent energy costs reignite inflation, hitting emerging markets hardest

Energy markets adapt to the Hormuz shock, but alternative routes stay fragile

Severe Escalation and Lasting Trade Disorder to pull GDP below baseline

Inflation uncertainty adds to the cost pressure on energy-exposed businesses

New Trump tariffs make US market access structurally more expensive

Tariff scenarios pull growth and inflation sharply apart by 2027

ADVANCED ECONOMIES OUTLOOK

US: slowing but resilient growth amid trade and commodity price uncertainty

US: Energy and housing keep inflation above target despite tariff relief

US: Structural resilience buffers the economy against oil price shocks

Eurozone: Energy shock stalls fragile recovery

Eurozone: imported energy costs reignite price pressures

Eurozone: Total energy dependence amplifies all downside scenarios

UK: Weak consumer confidence and emerging trade opportunities

UK inflation withstands energy costs pressure

UK balancing between domestic and international challenges

Japan: Economy slows as energy shocks and trade pressures test resilience

Japan's inflation outlook reflects deep energy vulnerability and rising risks

Japan severely impacted under rapid and prolonged Iran war

EMERGING AND DEVELOPING ECONOMIES OUTLOOK

China's export and AI engines mask uneven domestic recovery dynamics

Three downside scenarios highlight risks across China economy

India balancing between domestic benefits and international obstacles

India balancing between unpredictable weather and energy supply

India: Energy vulnerability continues to weigh on the economy

ASEAN growth holds firm despite tariffs and energy pressures

Energy dependence keeps ASEAN inflation pressures elevated throughout 2026

ASEAN faces divergent risks from China growth, trade war and energy disruption

Brazil: Strong labour market supports growth despite US trade pressures

Brazil: Sticky inflation persists as trade escalation drives upside risk

Brazil: Latin America downturn poses the sharpest growth threat

Mexico: Nearshoring momentum stalls as tariff uncertainty weighs

Mexico: Fuel subsidies limit Hormuz oil shock pass-through but food inflation persists

Mexico: USMCA review and mixed energy exposure create binary outcomes

CONCLUSION
